The extreme and unprecedented weather event that began on or around February 12, 2021 ("Winter Storm Uri") impacted a substantial portion of the continental United States, severely disrupting the supply, transportation, and distribution of natural gas across a multitude of pipeline systems. Transporters across the country, including interstate pipelines, intrastate pipelines and local distribution companies issued curtailment notices, operational flow and other similar orders severely restricting the flow of natural gas. This invoice reflects the applicable charges received to date associated with February account activity which reflects the market impact of Winter Storm Uri. Symmetry reserves all rights.
